1.1. Overview

At Pullman we are committed to running our business responsibly. We strive to maintain the highest standards of fairness, transparency and integrity in all we do - and this includes encouraging our supply chain partners to meet the high standards that we set for ourselves.

Pullman operates within a compliance led policy framework, which means when we procure goods or services, this is managed through our procurement team and the process is subject to robust checks throughout.

1.2. Our business

Pullman is one of the most recognisable industry names when it comes to maintenance and repair of the UK's commercial fleets.

With a heritage of managing some of the UK's most mission-critical HGV fleets for over 30 years, Pullman provide a 'one-stop-shop' provision inclusive of Repair and Maintenance, VMU management, MOT, and documentation specialised for tractors, rigids, trailers, fridge units, tail-lifts, tankers and ancillary of all marques.

We operate a number of internal policies to ensure that we are conducting business in an ethical and transparent manner. These include:

- Recruitment we operate a robust recruitment policy, including conducting eligibility to work in the UK checks for all employees to safeguard against human trafficking or individuals being forced to work against their will.
- Whistleblowing our whistleblowing policy ensures that all employees know that they can raise concerns about how colleagues are being treated or practices within our business, or our supply chain, without fear of reprisal.
- Health and Safety this policy sets out our approach to ensure we provide a healthy working environment for our staff and contractors that work out of our premises.

1.3. Our supply chains

Our supply chain includes suppliers of direct goods and services (roadside assistance, tyre replacement, maintenance parts, etc) and suppliers of indirect services (professional services, facilities, sales and marketing agencies).

We conduct appropriate due diligence checks on all suppliers prior to authorising them as a supplier to us. This due diligence includes assessing regulatory licences and certificates, compliance with relevant regulatory bodies, checks to determine the financial stability of the supplier as well as carrying out supplier audits, where appropriate.

1.4. Further steps

We are taking the following further steps to combat slavery and human trafficking:

- 1. Risk assess all new suppliers and ask them to certify that they have taken steps to ensure prevention of modern slavery within their own organisation and supply chain
- 2. Notify all existing suppliers of our expectations and their obligations in relation to the prohibition of modern slavery
- 3. Incorporate anti-slavery and human trafficking obligations into our procurement agreements and subcontracting arrangements on a risk assessed basis
- 4. Include appropriate measures in our due diligence processes for sourcing suppliers, subcontractors and acquisitions on a risk assessed basis
- 5. Provide training to relevant employees to ensure a high-level understanding of the risks of modern slavery and human trafficking; and
- 6. Where appropriate we will include reference to the Modern Slavery Act 2015 in our policies and procedures.

This statement is made pursuant to section 54(1) of the Modern Slavery Act 2015 and constitutes our Company's slavery and human trafficking statement for the current financial year.
